Slide-a-Key

Chord Cursor

~ Classic Edition add-on ~ find the three main chords in any key

CHORD CURSOR – cut along the dashed outline, then cut out the 8 windows

Assembly

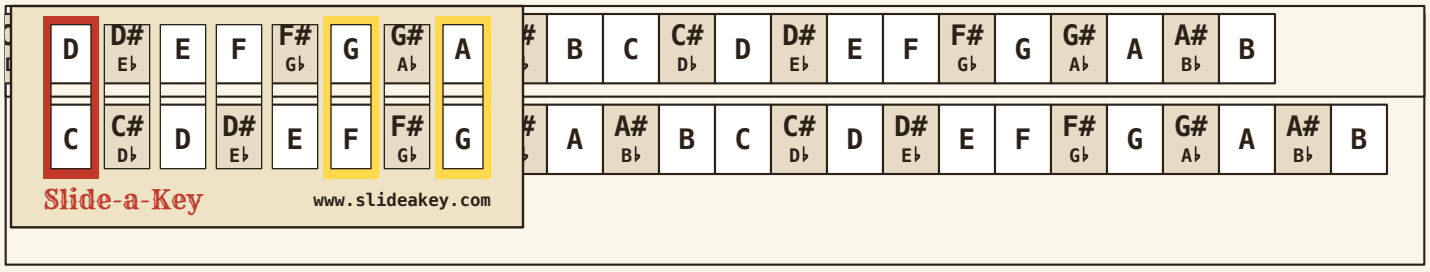

1. Print at 100% (no "fit to page"). Thin cardstock works best.
2. Cut out the cursor, then cut out its 8 windows. A craft knife is easiest, so ask an adult to help.
3. Fold the flap back and hook the cursor over the top edge, on top of the slider, windows over both strips.
4. To move it, hold the slider still and slide just the cursor.
5. Move the red frame over the key you're in. The framed notes on the slider are its three main chords in the new key.

OPTIONAL ADD-ON!
FITS YOUR CLASSIC EDITION!
I, IV AND V
IN ALL 12 KEYS!
(SLIDER NOT INCLUDED)

What are I, IV and V?

I, IV and V are Roman numerals for 1, 4 and 5: count the letters up from the key's own note. In C, C is I, F is IV and G is V. Lots of songs use only these three chords.

Quick Example: C up to D

Set the slider with D over C, then slide the cursor until its red frame sits over C. The frames show D, G and A over C, F and G: the three main chords, moved up.

Thank you for choosing Slide-a-Key!

Free to print and share. Please don't sell.
