TOP DISK – spins

# Slide-a-Key

## Musical Transposer

~ Pocket Edition ~ cut it, spin it, play it in any key

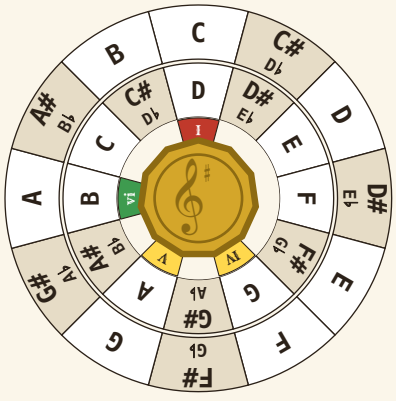

NO BATTERIES! NO APP! NO SUBSCRIPTION!
**WORKS IN ALL 12 KEYS!**
(FASTENER NOT INCLUDED)

## Assembly

1. Print at 100% (no "fit to page"). Optional: glue onto cardstock first.
2. Cut out the square base card and the round top disk along the dashed lines.
3. Poke a small hole through the + at the centre of each piece.
4. Stack the disk on the base card and push a brass paper fastener through both holes. Spread its legs flat at the back.
5. Turn the inner wheel until the key you want sits beside the key you're in. Read any note on the outer ring – the note beside it is your new note.

brass paper fastener

## Quick Example: C up to D

Turn the inner wheel until its D sits beside the outer C.
The main chords, C, F, G and Am, become D, G, A and Bm.
Works for other chords too: Em becomes F♯m, and G7 becomes A7.

**Thank you for choosing Slide-a-Key!**

Free to print and share. Please don't sell.
