CHORD CURSOR – cut along the dashed outline, then cut out the window

OPTIONAL ADD-ON!
FITS YOUR CLASSIC EDITION!
I, IV AND V
IN ALL 12 KEYS!
(SLIDER NOT INCLUDED)

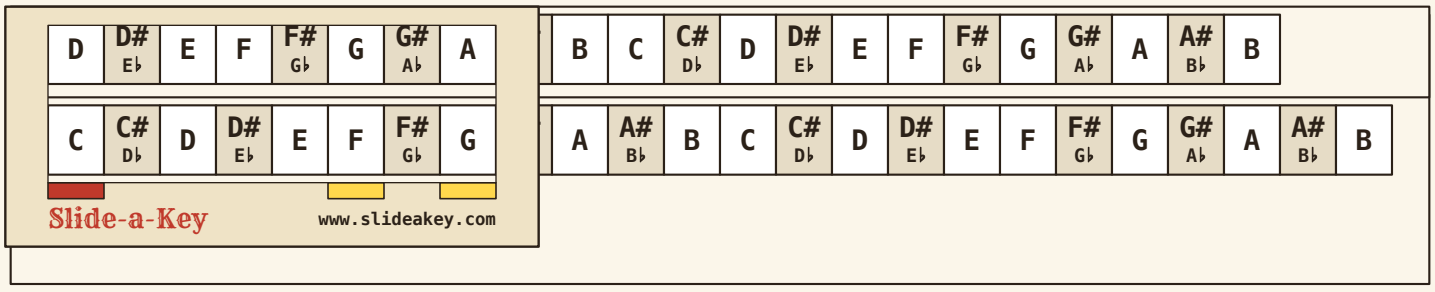

Assembly

1. Print at 100% (no "fit to page").
   Thin cardstock works best.
2. Cut out the cursor, then cut out its window.
   A craft knife is easiest, so ask an adult to help.
3. Fold the flap back and hook the cursor over the top edge, on top of the slider, window over both strips.
4. To move it, hold the slider still and slide just the cursor.
5. Move the red band under the key you're in. The slider's notes above the bands are its three main chords in the new key.

What are I, IV and V?

I, IV and V are Roman numerals for 1, 4 and 5: count the letters up from the key's own note.
In C, C is I, F is IV and G is V. Lots of songs use only these three chords.

Quick Example: C up to D

Set the slider with D over C, then slide the cursor until its red band is under C.
The bands show D, G and A over C, F and G: the three main chords, moved up.
