Slide-a-Key

Chord Finder Classic

~ Classic Edition add-on ~ find the main chords in any key

CHORD FINDER CLASSIC – cut out the window first, then cut along the dashed outline

OPTIONAL ADD-ON!
FITS YOUR CLASSIC EDITION!
MAIN CHORDS IN ALL 12 KEYS!
(SLIDER NOT INCLUDED)

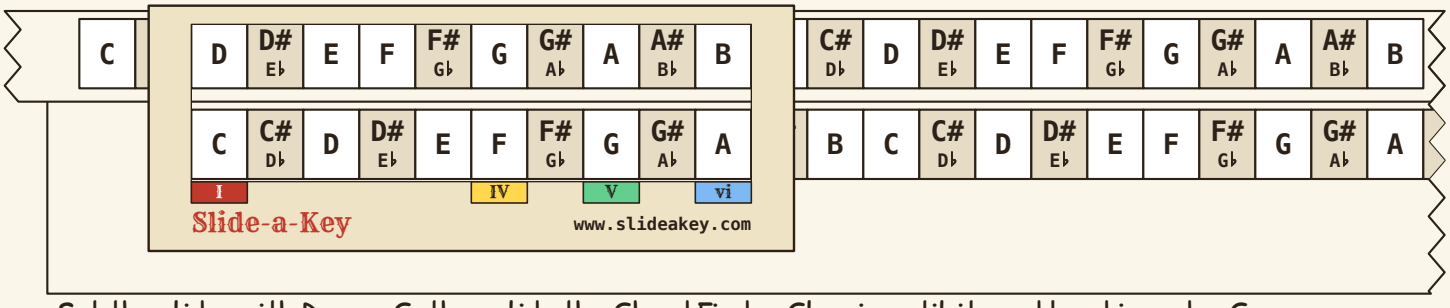

Assembly

1. Print at 100% (no "fit to page"). Thin cardstock works best.
2. Cut out the window first (the steps are printed in it), then the Chord Finder Classic.
3. Fold the flap back and hook it over the top edge, on top of the slider, window over both strips.
4. To move it, hold the slider still and slide just the Chord Finder Classic.
5. Move the red band under the key you're in. The slider's notes above the bands are its main chords in the new key.

What are I, IV, V, and vi?

I, IV, V, and vi are Roman numerals for 1, 4, 5, and 6: count the letters up from the key's own note. In C, they're C, F, G, and Am (small letters mean minor). Lots of songs use only these four. Song in a minor key, like Am? Put the blue mark on its note (or, for older folk songs, the red).

Quick Example: C up to D

Set the slider with D over C, then slide the Chord Finder Classic until its red band is under C. The bands show D, G, A, and B over C, F, G, and A: the main chords moved up, and Am becomes Bm.

Thank you for choosing Slide-a-Key!

Free to print and share. Please don't sell.
