Assembly

1. Print at 100% (no "fit to page") so every box stays the same width.
2. Optional: glue the page onto cardstock first and let it dry.
3. Cut along the one dashed line at the top of the page, edge to edge.
   The thin piece you cut off is the slider.
4. Lay the slider just above the bottom strip so the boxes meet, then slide it
   left or right. Shaded boxes are the sharps and flats, like the black keys on a piano.

Quick Example: C up to D

C	C# D♭	D	D# E♭	E	F	F# G♭	G	G# A♭	A	A# B♭	B	C	C# D♭	D	D# E♭	E	F	slider (moved 2 boxes)
		C	C# D♭	D	D# E♭	E	F	F# G♭	G	G# A♭	A	A# B♭	B	C	C# D♭	D	D# E♭	bottom strip

The slider's D sits over the bottom strip's C. The three main chords, C, F and G, become D, G and A. Works for other chords too: Am becomes Bm, Em becomes F#m.
