Slide-a-Key

Chord Strip

~ Sleeve Edition add-on ~ find the three main chords in any key

CHORD STRIP – cut along the dashed outline, then cut out every window

Assembly

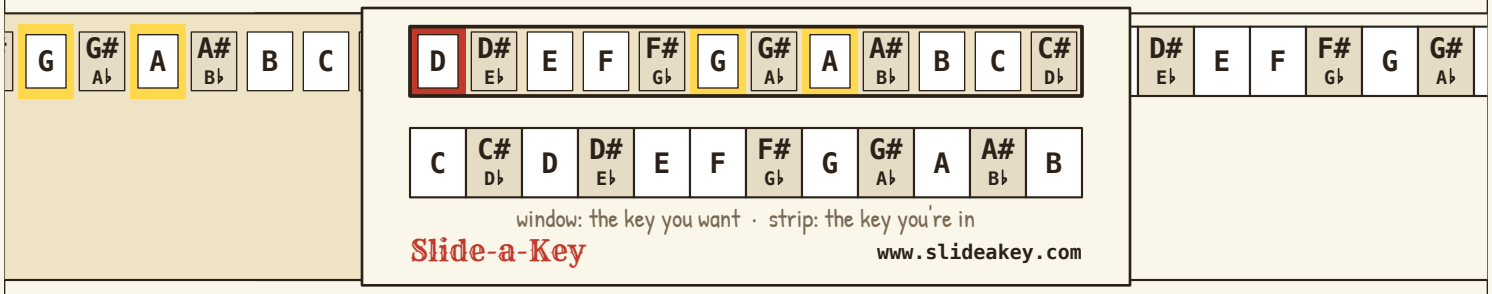

1. Print at 100% (no "fit to page").
   Thin cardstock works best.
2. Cut out the chord strip, then cut out all 24 windows.
   A craft knife is easiest, so ask an adult to help.
3. Slide it into your Sleeve Edition in front of the slider,
   coloured frames facing the window.
4. To move it, hold the slider still by its end and slide
   just the chord strip by its own end.
5. Move the red frame over the key you're in. The framed
   notes in the window are its three main chords in the new key.

OPTIONAL ADD-ON!
FITS YOUR SLEEVE EDITION!
I, IV AND V
IN ALL 12 KEYS!
(SLEEVE NOT INCLUDED)

What are I, IV and V?

I, IV and V are Roman numerals for 1, 4 and 5: count the letters up from the key's own note.
In C, C is I, F is IV and G is V. Lots of songs use only these three chords.

Quick Example: C up to D

Set the slider with D in the window over C, then slide the chord strip until its red frame sits over C.
The frames pick out D, G and A over C, F and G: the three main chords, moved up.

Thank you for choosing Slide-a-Key!

Free to print and share. Please don't sell.
