Slide-a-Key

Chord Sleeve

~ Sleeve Edition add-on ~ find the three main chords in any key

CHORD SLEEVE – cut around the dashed outline and cut out the window

Assembly

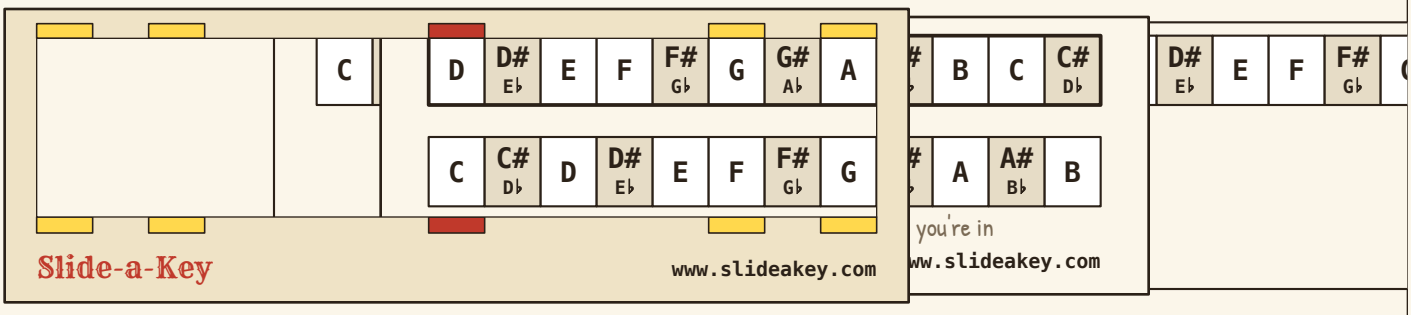

1. Print at 100% (no "fit to page"). Thin cardstock works best.
2. Cut out the chord sleeve, then cut out its window. A craft knife is easiest, so ask an adult to help.
3. Fold the back panel behind the front along the lower fold line, printed sides out.
4. Fold the GLUE flap in and glue it to the back of the front's bottom edge.
5. When it's dry, slide it onto your Sleeve Edition from either end, window at the front.
6. Move the red marks to the key you're in. Read the marked notes that sit over the strip.

What are I, IV and V?

I, IV and V are Roman numerals for 1, 4 and 5: count the letters up from the key's own note. In C, C is I, F is IV and G is V. Lots of songs use only these three chords.

OPTIONAL ADD-ON!
FITS YOUR SLEEVE EDITION!
I, IV AND V
IN ALL 12 KEYS!
(SLEEVE NOT INCLUDED)

Quick Example: C up to D

Set the slider with D in the window over C, then slide the chord sleeve until its red marks line up with C. The marks show D, G and A over C, F and G: the three main chords, moved up.

Thank you for choosing Slide-a-Key!

Free to print and share. Please don't sell.
